ABOUT ME

Hello, I am Yavuz Koz. I am 22 years old and I graduated from Kırklareli University Software Engineering. I am currently developing projects with ASP.NET Core. I research and learn new technologies when necessary. I use Asp .Net Core Mvc, Web Api, css, html, js and React languages and technologies in my projects.

WORK HİSTORY

INTERN

Digiturk Bein Media Group - Beşiktaş / İstanbul - 2024

- "Dealer and staff job assignment" using ASP.NET Core 8 Web API and React I worked on the project.

- I developed a personal web page (CV site) using Node js, express, React and mongodb.

INTERN

Dinosoft Business Solutions- Erzurum - 2022

- I took part in a team as an ASP.NET developer and contributed to the admin panel development work. This internship was mostly about theoretical knowledge.

PROJECTS DEVELOPED

🌐 https://github.com/kzyavuz

City Platforms

- City platform website was developed for Kırklareli, Lüleburgaz. Asp .Net Core Mvc architecture was used. (https://kirklarelisehir.com/, https://otuzdokuzbucuk.com/)

Yeşil Ayak

- I developed a platform that organizes nature events and can track reservations. It was developed with asp .net core mvc architecture. (https://github.com/kzyavuz/TravarselCoreProje)

Türkiye Spa Centers Platform

- A web platform developed with ASP.NET Core MVC architecture. (https://turkiyespamerkezleri.com/)

Spa Website

- A website was developed for spa centers. Asp .Net Core Mvc Architecture is used. (https://wellnesshamamspa.com/)

Dealer Personnel Job Assignment

- I developed the "Dealer and personnel job assignment" admin panel pages using ASP.NET Core 8 Web API and React. (https://github.com/kzyavuz/Staj1_Final)

Cv Site

- I developed a personal web page (CV site) using Node js, express, React and mongodb. (https://github.com/kzyavuz/PortfolyaWebSite)
